HELPING SMEs WIN FEDERAL GRANTS
& DEFENSE CONTRACTS

ELEGIBILITY REQUIREMENTS

- Small business (<500 employees)
- Principal Investigator (PI) must be > 51% employed by the business (based on a 40-hour work week).
- Up to 1/3 of the activities can be subcontracted to other parties.
- Will do R&D on American soil
- The company must have a physical address (no virtual offices)

AIR FORCE & AFWEX PROGRAM

Innovative technologies with a commercial value in a non-defense sector that can be applied to Air Force needs.

Phase I

Market Fit Validation
Max 3 months
\$50,000

Market fit validation to perform a feasibility study using scientific experiments, laboratory studies, commercial research and interviews, and:

1. Feasibility study of the project potential
2. PH II work plan and Budget
3. MOU with defense partner
4. Video

Phase II

Prototype Development
Max 27 months
< \$500K - \$1.5M

Develop, install, integrate and demonstrate a prototype system determined to be the most feasible solution during the Phase I feasibility study.

Phase III

Dual Use Applications

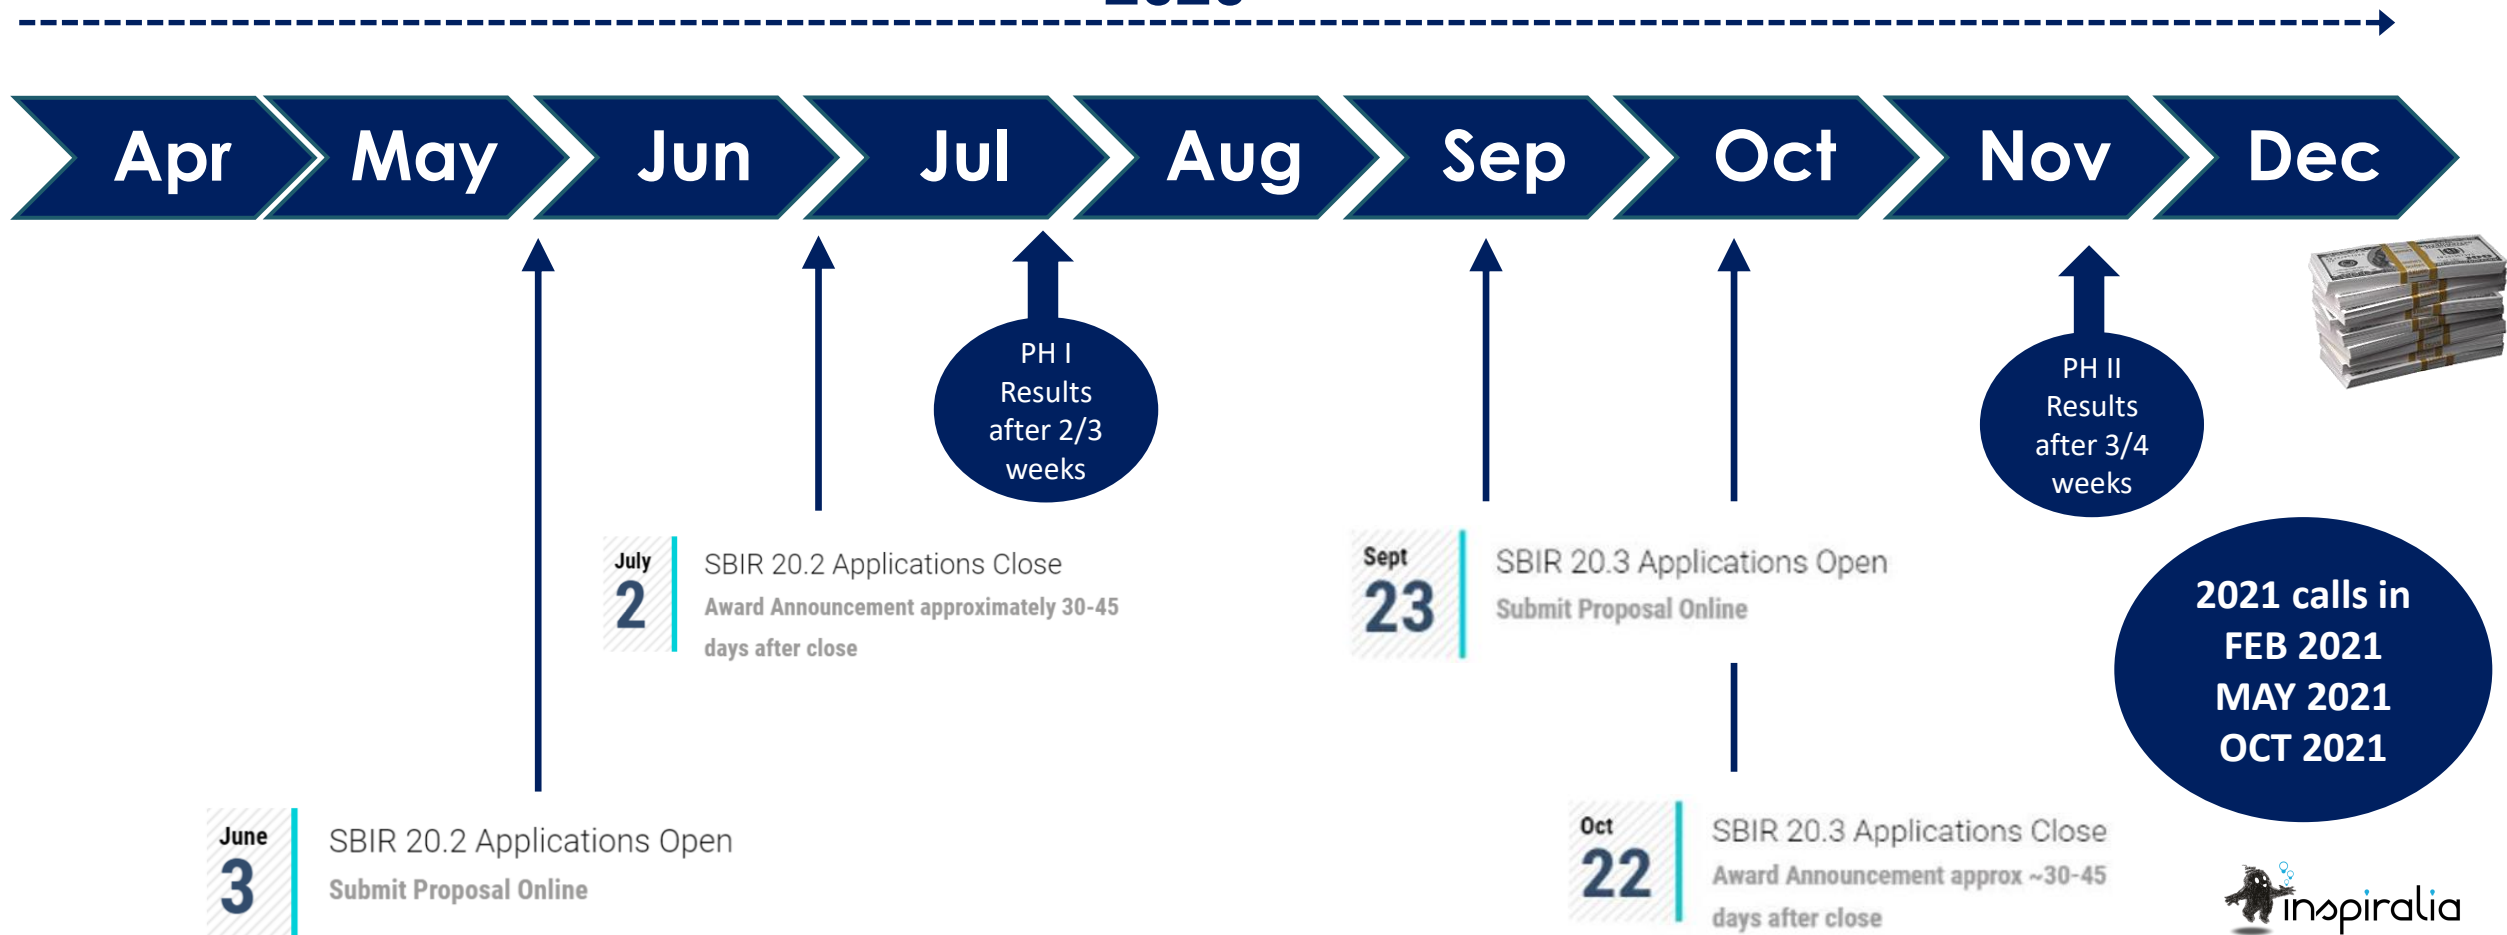

The contractor will transition the adapted non-defense commercial solution to provide expanded mission capability to a broad range of potential government and civilian users and alternate mission applications.
